EDUCATION AND CERTIFICATION

Grand Valley State University – Allendale, MI
Master of Science – Data Science and Analytics

Aug 2025 – Present
GPA: 3.96

Elizabeth City State University – Elizabeth City, NC
Bachelor of Science – Computer Science (Data Science Track) | Mathematics Minor

Dec 2023
Summa Cum Laude

Google Data Analytics Professional Certification

Aug 2023

WORK EXPERIENCE

Strategic Planning, Assessment and Accreditation Graduate Assistant
Office of the Provost – Grand Valley State University

Aug 2025 – May 2026; Aug 2026 – Present
Allendale, MI

- Validated, cleaned, and analyzed assessment and accreditation records across Excel and institutional web-based systems, improving data quality and supporting stakeholder decision-making on student learning outcomes and strategic planning.
- Built an AI-powered document management web app leveraging LLM-assisted workflows and full-text analysis API to tag, store, classify, and retrieve accreditation files, improving organization and enabling a scalable, multi-user collaboration.
- Collaborated with University Assessment Committee in database management, documentation, webpage administration.

Graduate Research and Teaching Assistant

Jan – May 2025

Department of Mathematics and Computer Science – Elizabeth City State University

Elizabeth City, NC

- Collaborated with professors to develop and implement machine learning models and dimensionality-reduction pipelines for high-dimensional datasets in Python; conducted research to improve accuracy of existing departmental algorithms.
- Conducted tutoring sessions and graded assignments and examinations for undergraduate computing and programming courses, supporting faculty with course assessment and providing consistent evaluation and feedback on student work.

Data Analyst

Apr 2024 – Jan 2025

Therapeutic Innovations Inc.

Worcester, MA

- Designed SQL-based ETL pipelines that automated extraction, cleaning, and consolidation of fragmented hospital records from Africa and India, improving operational efficiency and data quality for market-entry analysis and business reporting.
- Developed a lead-scoring model from hospital infrastructure and purchasing-capacity data, enabling the identification of high-potential clinical partners for low-cost essential medical equipment.

Commercial Real Estate Analyst Intern

Remote

Project Destined, Crescent Communities

Sep – Nov 2023

- Analyzed financial and historical data of various properties by utilizing commercial real estate research to offer crucial insights on investment profitability and suitability.
- Collaborated with senior real estate professionals to construct 10-year cash flow projections and sensitivity analysis based on various growth rates and market conditions, ensuring risk mitigation and enhanced investor confidence.

SKILLS

Python, SQL, R, Java, HTML, CSS, Excel, Tableau, Git & GitHub, ETL, KPI Reporting, Data & Statistical Analysis, Database Management, AI-Assisted Development, Market Research, Documentation, Adaptability, Clear Communication, Proactivity, Attention to Detail, Self-Motivation, Problem-Solving, Presentations, Stakeholder Engagement, Intellectual Curiosity, Initiative

LEADERSHIP, PROJECTS AND ACTIVITIES

Desktop Support Student Technician – Information Technology, Grand Valley State University

Jun – Aug 2026

- Supporting enterprise IT services through computer reimaging, end-user troubleshooting, hardware deployment and recycling, and TeamDynamix ticket management while maintaining accurate inventory and service documentation.

Gun Violence and Socioeconomic Data Analysis Project

Feb – May 2026

- Integrated and analyzed U.S. Census and Gun Violence Archive datasets in R using Tidyverse (including dplyr, stringr, and ggplot2) to identify socioeconomic patterns associated with firearm violence through statistical analysis and visualization.

Guest Data Analysis Consultant – American Statistical Association DataFest 2026

Mar 27 – 29, 2026

- Advised nine undergrad teams from multiple universities on dataset interpretation, Python-based cleaning and analytical strategy, helping contestants navigate conceptual hurdles while preserving competition rules against direct coding support.

Co-Founder and Product Lead – Sender+ Courier

Aug 2025 – Present

- Spearheading the build of a full-stack courier system, supporting package intake, pickup coordination, delivery tracking.
- Semi-finalist in Grand Rapids DeepTech 2025 Pitch after deploying an MVP built on React/Django full-stack architecture.

Volunteer Data Science Intern – Important Gifts Inc. DBA Changing the Present

Apr – Dec 2024

- Built Python web-scraping scripts, cleaned and normalized complex datasets to support data-driven nonprofit initiatives.

Comparative Business Analytics for Cab Transportation Investment Project

Sep – Nov 2023

- Leveraged Python, Pandas, NumPy, and Matplotlib to uncover ridership patterns, demand trends, and financial and operational insights that informed a data-driven investment recommendation between two cab transportation companies.

Strategic Business Development Extern – The Home Depot

Feb – Apr 2023

- Researched emerging market disruptors and innovative trends in the home improvement industry, delivering findings and investment insights as one of only 5% of externs selected to present to the global Strategic Business Development team.
